
Tech Serve Int'l News

Something wonderful is happening in a remote northern region of Zimbabwe, but getting there isn't easy. From the USA it can take about 35 to 40 hours of travel to get to Karanda Mission Hospital. When I got off the plane in Harare airport, I struck up a conversation with the lady in front of me. "Oh I've heard of the good things happening at Karanda and I want to go there to see myself!" Later in customs, another man said "This is so great, we love Karanda Mission place, thank you for coming!" So many wonderful people in the region have been touched by the loving care given by the Doctors and Nurses, who are making the compassionate instructions of Jesus to His followers a reality in the lives of those who need help.

With 150 beds, Karanda Mission Hospital handles 4,000 surgeries each year serving 75,000 individuals annually. It provides essential healthcare to patients in need from not only across Zimbabwe but also from neighboring Mozambique, Zambia, and Botswana. It has a School of Nursing and it is known for treating various conditions including HIV/AIDS, TB, obstetrics, chronic disease, and trauma. God is truly at work here through His loving followers, who come from all over the world to serve people!

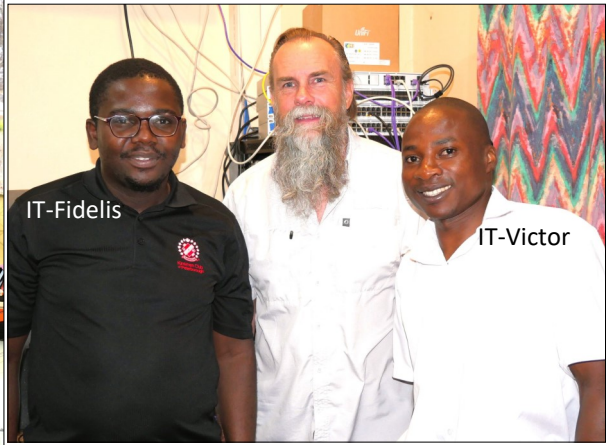

Many local churches are involved in the outreach of Karanda, with a big emphasis on reaching out to children with health programs, education and Awana Bible school.

Children are the future!

The national employees are very committed to the Mission of Karanda, and the crew trained them in the skills needed to install and maintain the systems, working side by side the entire project. Skills in: Fiber splicing, Network design, administration and program-

ming, network wiring and terminations, and VOIP telephone system deployment.

(Story by Weston Syverson)

Maintenance Crew

At Karanda, people demonstrate Christ's love in amazing ways!

Beautiful Villages!

For each opportunity Tech Serve is involved with there are many things that have to be done. Design is the beginning, and from there all the materials that are needed must be

purchased or acquired. Every item weighed, accounted for, and carefully loaded or shipped to the project site. We are thankful for all of the volunteer help from those who make each project a success!

Many thanks to Alice Donar (pictured left) and to the many volunteers she recruited to sort Bibles for the container to Ghana. Thank You!!

Many thanks to Tom Slatten and Kent McNabb for all of the countless hours working on laptops for the school videos and pastor teaching project. Thank you guys!!

On the Dock 2023

If you are serving anywhere in the world, and you need help with logistics and container shipping, a construction project, fiber, networks, electrical engineering, telephone and VOIP Systems, GIS systems, etc, feel free to call.

We love to help! www.techserve.org +1-501-679-2120

Tech Serve is grateful to so many of you who pray for us, support us, and go with us to be a help to many. You make serving a Joy and we are privileged to work alongside of you to make the name of Jesus known around the world. Thank you for taking the time to read this and letting us share with you the good things going on!
