
Tech Serve Int'l News

— Winter 2018 —

Have you ever wanted to do something for God yet felt like you don't know what? This is often a struggle because we don't feel gifted in preaching or such. In the Bible God used many people who felt the same, yet it's the willing heart that He uses!

Wes Syverson grew up with this struggle, desiring to serve God but wondering how. In the middle of a successful Construction career, Wes changed direction and headed to the Mission field, willing to use his talents for God's Kingdom.

For 20 years Wes hosted volunteers accomplishing many projects all over the world for Wycliffe Bible Translators . In 1989 Wes turned his vision into Tech Serve which has since been serving the specific, overlooked needs of hundreds of ministries and Non-Profits Worldwide. This vision continues each year as teams of willing hearts travel the world helping real people, supported by willing hearts here at home.

Supporting Wycliffe Bible Translators

Imagine an entire community of willing hearts, dedicated to translating the Word of God into native languages. In Cameroon there are many people from all over the world who have dedicated their lives to Bible Translation. To accomplish this they have built a base of operations where they can safely work and live, and this campus needs many people with talents to keep it functioning. Earl and Ellen Nickelson volunteered to go with Weston Syverson to install a new VOIP telephone system, so that all of the many offices can have good internal and external communications, increasing effectiveness and security.

Pictured above is Weston training the staff of SIL/Wycliffe on the new VOIP system.

Volunteer Ellen Nickelson setting up the phones for the installation.

Wonderful hearts in Cameroon!

Emmanuel replaces the Receptionist's Console

Earl and Emmanuel having fun!

IT Director Francis and Emmanuel with the new VOIP system. So small!

Manos Amigas Eye Surgery Clinic Honduras

Construction in Honduras is continuing to go well, and we are thankful for the help we've received for this project!

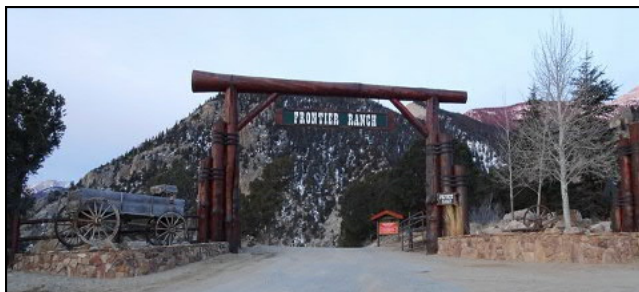

TSI Superintendent Larry Zaugg (right) has a willing heart, thank you Larry!

Wes and Darryl McGinty loading the new Storage building

We have shipped a *third container* with cabinets, fixtures, electrical, sinks, medical, etc. to finish the Eye Clinic as well as a new storage building. We are so grateful for each volunteer who has helped so far, yet **we are in need of more skilled volunteers** to go to Honduras and help construct the building — please contact **Wes** at **501-679-2120** if you are interested!

Young Life's Frontier Ranch in Colorado

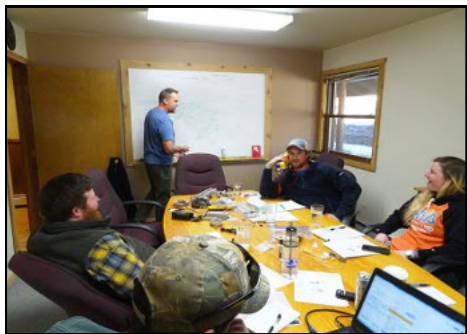

Young Life has many people who have a willing heart! They “*invite kids to follow Christ, care for them regardless of their response, and change lives in the process.*” To accomplish this Young Life has camping facilities all over to give those that don't know Christ an opportunity to meet Him.

Weston and YL Staff Levi

In the middle 1980's Tech Serve began installing systems for Young Life camps. This year at Frontier Ranch we installed the 4th system in 29 years, and this time it's a VOIP system able to use the Internet to make calls.

Tech Serve's specialty is to provide current technology with complete training so that each location can maintain their own system. This works well as most systems are installed in remote locations. Tech Serve also provides support for each system throughout its life!

A Special Thank You for a Successful Year

Our thanks to all of our donors who help to make this important work possible.

Tech Serve is a faith based non profit organization and what this means is that Tech Serve is funded and operates from the donations of people like yourself. It also means that our staff are supported missionaries living on the generous donations of people who are interested in supporting this work. At all times Tech Serve strives to be as transparent as possible. Please feel free to call with any questions, or come by for a visit. If you would like to invest in a project we have many requests for help from hospitals and ministries around the world. Please **con-**
sider supporting Tech Serve, and **please pray for us.**

We are looking forward to what God will do in 2019!
